Refurbishments to a high standard

We are very proud to announce that we have just completed another full refurbishment to this house in the Bootle area of Liverpool.

When we purchased the house, it was derelict and had not been lived in for many months. We completely renovated this house to make it a lovely home with a brand new kitchen with fitted units and appliances and even put in a brand new bathroom. As you will see, our refurbishments are always done a very high standard and we ensure we source the best quality materials to make a house into a home.

This house is now for sale and would make a perfect home for anyone wanting to live in the Bootle area of Liverpool L20.

Keep your eye on our property news pages over the next few months as we will have many more renovations happening and have just secured a commercial shop premises so you will see the full renovation from start to finish very soon.
