Mgs Estates (UK) Ltd

A Working Partnership

Welcome to the first MGS Newsletter

Here at MGS we are proud of creating long lasting relationships and links between companies and providing a varied range of housing.

A large number of our properties are managed by companies such as Excel Housing and New Start homes, who provide housing support to help people who have suffered with drugs or alcohol misuse problems or housing related issues such as homelessness or domestic violence.

We are proud to say we have recently completely refurbished and renovated a house in the regeneration area of Anfield for New Start Homes.

This house was derelict, untouched for many years and not suitable to live in. After weeks of structural refurbishment, it is now been transformed into a luxury house consisting of an office space for staff, a large communal livingroom ,2 kitchens and 5 spacious flats with the added luxury of ensuite bathrooms.
